

FOR IMMEDIATE RELEASE

THE XT™ SERIES OF CAMOUFLAGE HAS ARRIVED WITH THE ALL-NEW SKYLINE *APPARITION XT™* CAMOUFLAGE!

Blasdell, NY – In 1995 Skyline introduced the Apparition™ design that went on to become one of the most functional and popular camouflage patterns ever created for the outdoor industry. Today, almost ten years later to the day, Skyline is proud to announce the rebirth and introduction of an all new camouflage evolution; Skyline's new ***Apparition XT™***!

Skyline Camouflage retained the key attributes of the predecessor and incorporated the "***Xtreme Technology***" available today to produce the most exciting camouflage development in recent years! New ***Apparition XT™*** marks the return of the original late season hard woods camouflage pattern! Ultra-real bark detail along with high-resolution photographic images of maple, beech and oak leaves highlight some of the exciting additions to this design. But the key to it all is the open-pattern design philosophy with the perfect assembly of imagery mixed with "darker foreground shades to lighter background colorations; i.e. Skyline's exclusive 3-dimensional technology!

Apparition XT™ will be available on Skyline's brand clothing apparel and will be offered for commercial licensing opportunities as well. For more information on ***Apparition XT™*** please contact Jim Maiorano, Licensing Manager, at 877-650-7591 or visit our website at www.skylinecamo.com.
